PROFESSIONAL PROFILE

Frontend developer with production experience at PulsifyAI, focused on responsive interfaces, reusable components and polished UI implementation. Completed a two-year Web Development programme at ETIC Algarve.

EXPERIENCE

PulsifyAI | Frontend Development Intern 29 June 2026 - Present

- Built pulsifyai.com from scratch using React, JavaScript, Three.js and WebGL shaders.
- Designed and built labs.pulsifyai.com and redesigned the ImoCoach application, admin interface and public landing page.
- Redesigned a confidential internal application, improving navigation, forms, table readability and copy actions.
- Tested and adapted interfaces across desktop, tablet and mobile.

Kapta | Backend Developer Intern April - July 2022

Supported API development and database management, working with server-side logic and real-world development workflows.

SELECTED PROJECTS

Stone Saints - Individual storefront project built with Stripe and Google sign-in integration. stonesaints.vercel.app

SmartFlow - Two-person team project exploring traffic priority for emergency vehicles. Contributed frontend pages and backend functionality.

EDUCATION

ETIC Algarve - Web Development
Two-year programme completed July 2026.

Escola Secundaria de Albufeira - 2019-2022
12th year: Gestao e Programacao de Sistemas Informaticos.
